## **Dale, another nasty Missal. Read my comment at the end.**

As you may have noticed I have hesitated to spend much time associating Obama with the Islam religion...but what has been happening recently as well as the backup Snopes gives some of it I am beginning to believe that almost every word of it is true....If it is in fact wrong then I will apologize to him as soon as he leaves office....

## **OBAMA'S COLLEGE (Classmate) SPEAKS OUT**

By  
Wayne Allyn Root , June 6th, 2010

Barack Hussien Obama is no fool. He is not incompetent. To the contrary, he is brilliant. He knows exactly what he's doing.

He is purposely overwhelming the U.S. economy to create systemic failure, economic crisis and social chaos thereby destroying capitalism and our country from within.

Barack Hussien Obama was my college classmate ( Columbia University ,class of '83).

He is a devout Muslim do not be fooled.

Look at his Czars...anti-business..anti-American. As Glenn Beck correctly predicted from day one, Barack Hussien Obama is following the plan of Cloward & Piven, two professors at Columbia University . They outlined a plan to socialize America by overwhelming the system with government spending and entitlement demands.

Add up the clues below. Taken individually they're alarming. Taken as a whole, it is a brilliant Machiavellian game plan to turn the United States into a socialist/Marxist state with a permanent majority that desperately needs government for survival ... and can be counted on to always vote for bigger government.

Why not? They have no responsibility to pay for it.

Universal health care

The health care bill had very little to do with health care. It had everything to do with unionizing millions of hospital and healthcare workers, as well as adding 15,000 to 20,000 new IRS agents (who will join government employee unions).

Obama doesn't care that giving free health care to 30 million Americans will add trillions to the national debt.

What he does care about is that it cements the dependence of those 30 million voters to Democrats and big government. Who but a socialist revolutionary would pass this reckless spending bill in the middle of a depression?

Cap and Trade. Like health care legislation having nothing to do with health care, Cap and Trade has nothing to do with global warming.

It has everything to do with redistribution of income, government control of the economy and a criminal payoff to Obama's biggest contributors. Those powerful and wealthy unions and contributors (like GE, which owns NBC, MSNBC and CNBC) can then be counted on to support everything Obama wants.

They will kick-back hundreds of millions of dollars in contributions to Obama and the Democratic Party to keep them in power. The bonus is that all the new taxes on Americans with bigger cars, bigger homes and businesses helps Obama "spread the wealth around."

Make Puerto Rico a state. Why? Who's asking for a 51st state? Who's asking for millions of new welfare recipients and government entitlement addicts in the middle of a depression?

Certainly not American taxpayers. But this has been Barack Hussien Obama's plan all along. His goal is to add two new Democrat senators, five Democrat congressmen and a million loyal Democratic voters who are dependent on big government.

Legalize 12 million illegal Mexican immigrants. Just giving these 12 million potential new citizens free health care alone could overwhelm the system and bankrupt America

. But it adds 12 million reliable new Democrat voters who can be counted on to support big government. Add another few trillion dollars in welfare, aid to dependent children, food stamps, free medical, education, tax credits for the poor, and eventually Social Security.

Stimulus and bailouts. Where did all that money go? It went to Democrat contributors, organizations (ACORN), and unions -- including billions of dollars to save or create jobs of government employees across the country. It went to save GM and Chrysler so that their employees could keep paying union dues.

It went to AIG so that Goldman Sachs could be bailed out (after giving Obama almost \$1 million in contributions). A staggering \$125 billion went to teachers (thereby protecting their union dues).

All those public employees will vote loyally Democrat to protect their bloated salaries and pensions that are bankrupting America. The country goes broke, future generations face a bleak future, but Obama, the Democrat Party, government, and the unions grow more powerful.

The ends justify the means.

Raise taxes on small business owners, high-income earners, and job creators. Put the entire burden on only the top 20 percent of taxpayers, redistribute the income, punish success, and reward those who did nothing to deserve it (except vote for Obama).

Reagan wanted to dramatically cut taxes in order to starve the government.

Barack Obama wants to dramatically raise taxes to starve his political opposition.

With the acts outlined above, Barack Hussien Obama and his regime have created a vast

and rapidly expanding constituency of voters dependent on big government; a vast privileged

class of public employees who work for big government; and a government dedicated to

destroying capitalism and installing themselves as socialist rulers by overwhelming the system.

Add it up and you've got the perfect Marxist scheme -- all devised by my Columbia University college classmate Barack Hussien Obama using the Cloward and Piven Plan.

Do your part to save America by forwarding this to your entire list.

Dale, How about this as an insidious "missal" of a political smear. This kind of thing does really scare me. The message inspires all of us to place blame for the "mess" our country is in - upon the "other political party", welfare recipients, and all those "socialist" public, government employees such as the

police, teachers, fraud investigators, prison guards, librarians, etc. *(If everyone were honest, charitable, and caring, maybe we would need less government employees.)*

It scares me that good, honest, people are taken in by the unfounded, untruthful, reckless, slanderous charges such as the quote below.

*"Barack Hussien Obama and his regime have created a vast and rapidly expanding constituency of voters dependent on big government; a vast privileged class of public employees who work for big government; and a government dedicated to destroying capitalism and installing themselves as socialist rulers by overwhelming the system."*

It scares me because views like that can be contagious to those who already feel underprivileged. These views reveal the writer to be a deliberate calculated propaganda liar who is selfish, mean, with no compassion for "losers" (*defined as: everybody but another rich capitalist*). He has no heart for the whole of this nation, not willing to seek real causes for our troubles nor real solutions. He would choose to prolong the suffering of our economy so as to discredit and defeat Obama.

Watch and read carefully who the writer is promoting in his attempt to discredit Obama. His complaint claims Obama wants to *"Raise taxes on small business owners, high-income earners, and job creators. Put the entire burden on only the top 20 percent of taxpayers, redistribute the income, punish success, and reward those who did nothing to deserve it (except vote for Obama).* Money is power, money has power. When the powerful "money people" have ultimate power of

this nation, -- there goes the American Dream for sure. Has it ever occurred to us that it was an unbridled powerful wealthy segment of our nation that tipped us over the edge into this depression. It was the banks, dodging the fiscal regulations, while making irresponsible loans, and Wall Street Investors broke laws and credibility with their "get rich schemes" while defrauding their clients. Big business, in their greed, caring nothing about our country's workers, sent the manufacturing jobs abroad. Money has power, and look where that power has gotten us. When the powerful believe they have no responsibility to use their wealth for the benefit of others, -- there goes the heart of the nation. It scares me that the politically irresponsible chain letters that flood the internet, -- like this one, will succeed in putting into power a ruling class whose goal is to install themselves as raw capitalist rulers, able to overwhelm our system that once provided that American Dream.

Mom, it is all half truths, outright lies, and fear mongering. The author of this missive went to Columbia at the same time as Obama, but they never met, so the author has no basis for stating Obama's motives. The author is a politician. The link given that is supposed to prove everything claimed only verifies it was written by Wayne Allyn Root, a regular guest on FOX News and 2008 Libertarian Party presidential candidate. His claims are preposterous, starting with calling Obama Muslim and blaming Obama for the economic problems as a plot to destroy Capitalism. His proximity to Obama is used to claim some inside information about the true nature of Obama's motives. It is a variation of guilt by association. The kicker is using the snopes link to claim legitimacy, like if anyone actually

goes there, they would find it only verifies the source is correctly attributed, but gives no credence to the claims made.

I remember some lyrics for a song of the 60s. Paranoia runs deep, into your heart it will creep. It starts when you're always afraid. Get out of line, the man comes, and takes you away. You've got to stop! Hey what's that sound, everybody look what's going down. However, apparently some people like being blind, ignorant and paranoid.

Doesn't anyone remember the Boston tea party was an illegal protest against the monopolistic power of the East India Company? Today's conservatives are nothing but Tories shilling for the powerful vested interests that have bought a much of the media and political establishment.

I read a good retort the other day.

Remember when teachers, public employees, Planned Parenthood, NPR, and PBS crashed the stock market, wiped out half of our 401ks, took trillions in taxpayer funded bailouts, spilled oil in the Gulf of Mexico, game themselves billions in bonuses, and pain no taxes? Yeah, me neither.

Whenever a politician claims to be revealing the devious motives of an opponent, it usually only reveals how low they are willing to stoop themselves.
